PIVOT STEER TRAILERS

Series 52-016

Since 1891, Nutting continues to be the premier manufacturer of engineered material handling carts, trucks, and trailers. Nutting carts feature sturdy materials using state-of-the-art fabrication to support any task and are built for life.

Common applications for our handling carts and trailers include warehouses, distribution centers, and manufacturing facilities. We also manufacture specialized solutions through modification of existing products or construct completely customizable solutions based on unique project needs.
